## Medicare Changes:

In the last decade, we have seen the face of the Medicare Market change more than any other time since Medicare's inception in 1966.

The variety of plan choices, growth in demographics, new models of sales distribution, fewer licensed agents, Health Care Legislation, pricing wars and constraints from carriers and government cutbacks on Medicare benefit payments **have created, *not a problem, but an unprecedented opportunity* for organizations marketing insurance to the over 65 market.**
