

Charter + Rx (HMO), Sound + Rx (HMO) and Peak + Rx (HMO)

2017 Formulary

(List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 09/02/2016.

For more recent information or other questions, please contact Soundpath Health Customer Service at 1-866-789-7747 or, for TTY users, 711, 8 am to 8 pm, Monday – Friday and 8 am to 8 pm, Monday – Sunday October 1 through February 14, or visit www.SoundpathHealth.com.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Soundpath Health. When it refers to “plan” or “our plan,” it means Charter + Rx (HMO), Sound + Rx (HMO) and Peak + Rx (HMO).

This document includes a list of the drugs (formulary) for our plan which is current as of 01/01/2017. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2018, and from time to time during the year.

What is the Charter + Rx, Sound + Rx and Peak + Rx Formulary?

A formulary is a list of covered drugs selected by our plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. We will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2017 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2017 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of 01/01/2017. To get updated information about the drugs covered by our plan, please contact us. Our contact information appears on the front and back cover pages.

In the event of mid-year non-maintenance formulary changes, we will provide at least 60 days advance notification of changes applicable to the member and a comprehensive list of all changes on the monthly Explanation of Benefits (EOB) mailing, also called the Monthly Prescription Drug Summary. We will also post the changes to our plan website 60 days in advance of the change. Additionally, once the change(s) become effective on the formulary, the updated formulary will be posted on our plan website.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents". If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page I-1. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Soundpath Health covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Our plan requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity Limits:** For certain drugs, our plan limits the amount of the drug that we will cover. For example, we provide 60 capsules per prescription for celecoxib (generic Celebrex). This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Charter + Rx, Sound + Rx and Peak + Rx's formulary?" on pages Intro-4 – Intro-5 for information about how to request an exception.

What are over-the counter (OTC) drugs?

OTC drugs are non-prescription drugs that are not normally covered by a Medicare Prescription Drug Plan. Our plan pays for certain OTC drugs. We will provide these OTC drugs at no cost to you. The cost to

Soundpath Health of these OTC drugs will not count toward your total Part D drug costs (that is, the amount you pay does not count for the coverage gap).

COVERED OVER-THE-COUNTER (OTC) DRUGS

Generic Name	(Reference Brand Name)	Dosage Form
<i>cetirizine hydrochloride</i>	(Zyrtec)	Chewable Tablets, Solution, Tablets
<i>cetirizine hydrochloride/pseudoephedrine hydrochloride</i>	(Zyrtec-D)	12 Hour Tablets
<i>loratadine</i>	(Claritin)	Solution, Tablets
<i>loratadine/pseudoephedrine sulfate</i>	(Claritin-D)	12 Hour Tablets 24 Hour Tablets
<i>ketotifen fumarate</i>	(Zaditor)	Drops

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that our plan does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by our plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by us.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Charter + Rx, Sound + Rx and Peak + Rx's Formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.

- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, we limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, our plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 31-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 31-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 93-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Current members who are outside of their transition period may experience circumstances that involve changing from one treatment setting to another (level of care change). For example, you are moved from a

hospital to a skilled nursing facility and are accompanied by a discharge list of medications from the hospital formulary. If you experience a level of care change beyond the first 90 days of membership and need a drug that is not on our formulary or if your ability to get your drugs is limited, we may cover a 31-day emergency supply while you pursue a formulary exception. This policy only applies to Part D covered Drugs covered by a network pharmacy unless you qualify for out-of-network access.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

Charter + Rx, Sound + Rx and Peak + Rx's Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by Charter + Rx, Sound + Rx and Peak + Rx. If you have trouble finding your drug in the list, turn to the Index that begins on page I-1.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., LIDODERM) and generic drugs are listed in lower-case italics (e.g., *lidocaine topical adhesive patch*).

The information in the Requirements/Limits column tells you if our plan has any special requirements for coverage of your drug.

Drugs are grouped into one of five tiers – 1, 2, 3, 4 or 5. The Drug Tier column tells you the Tier your drug is in. The Tier determines how much you will pay for your drug. Your cost also depends on how much of a supply you get. For example, here is a list of the five tiers and the copay for a one-month (31-day) supply at a network pharmacy.

Tier 1: Preferred Generic Drugs –	\$4 copay
Tier 2: Generic Drugs –	\$20 copay
Tier 3: Preferred Brand Drugs –	\$47 copay
Tier 4: Non-Preferred Brand Drugs –	50% coinsurance
Tier 5: Specialty Drugs (limited to 31-day supply) –	33% coinsurance

The following Utilization Management abbreviations may be found within the body of this document

COVERAGE NOTES ABBREVIATIONS

ABBREVIATION	DESCRIPTION	EXPLANATION
	<i>generic</i> (Brand)	The reference brand name in parentheses is provided for information only to assist in identifying the generic medication and does NOT indicate formulary status or coverage.
PA	Prior Authorization Restriction	You (or your physician) are required to get prior authorization from our plan before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
PA BvD	Prior Authorization Restriction for Part B versus Part D Determination	This drug may be eligible for payment under Medicare Part B or Part D. You (or your physician) are required to get prior authorization from our plan to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
PA HRM	Prior Authorization Restriction for High Risk Medications	This drug has been deemed by CMS to be potentially harmful and therefore, a High Risk Medication for Medicare beneficiaries 65 years or older. Members age 65 years or older are required to get prior authorization from our plan before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
PA NSO	Prior Authorization Restriction for New Starts Only	If you are a new member, you (or your physician) are required to get prior authorization from Soundpath Health before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
QL	Quantity Limit Restriction	Our plan limits the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy Restriction	Before our plan will provide coverage for this drug, you must first try another drug(s) to treat your medical condition. This drug may only be covered if the other drug(s) does not work for you.
NDS	Non-Extended Day Supply	All Drugs in Tier 5 are limited to a 31-day supply. Extended Day Supplies are not covered for drugs on this Tier.
LA	Limited Access Drug	This prescription may be available only at certain pharmacies.
